

What is Your Superpower?

@specklesofsunshine

Whenever you think of Superpowers, you always think
of magic,

Flying through the air, chanting “Super Calla Fragic”.

But a Superpower lives deep inside you, it appears
every day,

My Superpower is helping others I do this in every
way.

Now have a think of what is yours, one that makes
others smile,

You may have only realised or known it for a while.

That you’re a great friend, you make people laugh or
you’re really good at art,

You always think of others or you’re really very smart.

So remember...

Everyone has a Superpower in their own special way,

So if I asked what is your Superpower? What would
you say?
